

MSN Top750 Pearson bootstrap probability heatmap by confidence tier

588 stable MSN Patch-seq cells shown in three separate tiers: High (n=339), Moderate (n=175), Low (n=74)
Within each tier, cells are ordered by bootstrap top1 subtype and probability; 500 replicates

A blank gap with 0.5-pt solid flanking borders separates D1 and D2; 0.5-pt dashed vertical lines separate adjacent subtypes within D1 and D2; 0.5-pt solid frames delimit the three confidence tiers. Probability 0 is white. Confidence annotation uses Lancet colors: High (green), Moderate (blue), Low (red).
